WEB DEVELOPER

Projects

TWO WAY MARKET PLACE - DIGITAL SALVAGE

Ruby on Rails | JavaScript

GitHub: <https://github.com/deanraguso/Digital-Salvage>

Hosted: <https://digital-salvage.herokuapp.com>

Utilizes: Stripe for secure payments, Action Cable for a live updating chat feature, and AWS S3 for storage of image uploads.

CHAT APPLICATION - CHAT POINT

Ruby on Rails | JavaScript

GitHub: <https://github.com/deanraguso/Chat-Point>

Hosted: <https://dean-chat-point.herokuapp.com>

A chat application like Facebook Messenger. It allows a user to log in through their Facebook, Google, or GitHub account. Achieves its style using Bootstrap, utilizes Action Cable and Omni-Auth gems.

PROFESSIONAL PORTFOLIO

JavaScript | JQuery

GitHub: <https://github.com/deanraguso/deanraguso.github.io>

Hosted: <https://deanraguso.github.io>

A responsive personal portfolio website, built from the ground up. Using only HTML, CSS, JavaScript, and JQuery to achieve its design and functionality.
